

St. Francis of Assisi Parish

Would like to sponsor a team again this year with

Rebuilding Together is a volunteer organization that works in partnership with the community to address the needs of low-income homeowners, primarily the elderly, disabled, and families with children. Recipients of services are those who have worked hard to own their own homes but whose failing health or fixed income does not allow them to cover the extraordinary costs of home repair.

St. Francis has participated every year from 2003 through 2014, but were back again in 2016. We have built a wheelchair ramp, done numerous plumbing and electrical repairs, replaced a roof, made structural repairs, cleaned up yards that were overgrown with shrubs and trees, applied many, many gallons of paint, and made minor improvements that allowed the occupants to live in warmth, safety, and independence. We are hoping to be able to participate again this year.

- If you are interested in joining the team, fill out the volunteer survey on the back of this flier and place it on the Social Concerns Table. Please take care to print clearly especially in filling in the e-mail address. E-mail is our primary method of keeping people informed. If you don't have e-mail, make sure your phone number is legible. This information is very important. Rebuilding Together assigns projects based on the number of people on a team and the skills they have. **Remember** you do not have to be a skilled crafts person to help. All volunteers can make a contribution.
- This year's project will be **April 28**. Most projects require a day of preparation or a followup day. So if you can't participate on the 28th, there may still be an opportunity for you to help.
- **LEADERS NEEDED** - If this project is to be a success, we need people willing to help plan the work, and lead a small group in performing one or more of the tasks in the project.
